

CONCERTINA COUNTER

01.01.2018

CONCERTINA COUNTER

Concertina is an adjustable and ergonomic work station. The counter takes the comfort of the user into account and improves the work habit of library and office employees. The height adjustability gives the user the flexibility to change work postures during the course of the day to break potentially health-impairing routines or to adjust the work station to fit several individuals or tasks simultaneously.

The counter is often placed at the entrance area and is the first point of contact, thus the first impression of the library. Therefore, the counter should be welcoming, inviting and tempt people to enter and explore the library.

With its aesthetic and functional design the Concertina counter offers a flexible system with a range of options to fit the individual needs.

TECHNICAL SPECIFICATIONS

GENERAL SPECIFICATIONS

CONSTRUCTION

The construction of the Concertina counter with more than one module is based on a left-to-right sequence (seen from the person's view sitting behind the counter).

BASE MODULES

The base module has a lower dual front panel, a cable carrier, an upper front panel and two end frames. The end frames are fitted with a rubberized half round PVC bumper in medium grey placed on the user side and supplied with two actuators.

The base modules are available as:

- Two optional widths (110 or 150 cm)
- Straight and curved modules (45° or 60°)
- Fixed height (standard 72 cm) or electronically adjustable (70 - 120 cm)
- Freestanding or connected modules (starter and add-on)
- Front panel in steel or wood
- Upper front panel in solid steel or perforated steel

UPPER FRONT PANELS

The upper front panel has either a solid steel or steel perforated surface. It is fastened underneath the counter top and follows the counter top up and down (if height adjustable module).

COUNTER TOPS

The counter tops are supplied with solid, grey, flexible, rubberized PVC edges. The counter tops are available as:

- Three optional depths (66, 78 or 90 cm)
- Four optional functions (freestanding, left side free, middle, right side free)
- Optional widths depending on base module width:
 - 110 cm base = 110, 130 or 150 cm
 - 150 cm base = 150, 170 or 190 cm
- Without or with rail (low or high)
- Four designs (no projection, projection towards client, projection towards user, projection both sides)

INTERMEDIATE MODULES

The intermediate module includes a dual front panel, cable carrier and a top shelf. It is used to connect modules that do not have connecting counter tops.

ELECTRICAL WIRE TRANSFER

All end frames have a rectangular electrical wire transfer knock out on the right hand side of the end frame (when viewed from the user's side). Configurations of successive modules are prepared for wire-lead through in the end frames. The cable carrier is placed between the dual front panels on the base module, supporting any wire electrical components.

STEEL POWDER COATING

Steel components are powder coated mainly with thermo hardened polyester powder. Depending on colour choice some powders include epoxy. Thickness of the coating is 60-80 my. See Design Options for colour specifications and type of powder.

VENEERED WOODEN COMPONENTS

are mainly lacquered with UV-lacquer. See Design Options for veneer specifications.

DESIGN OPTIONS

STEEL COMPONENTS

BASE MODULES

The front panel and end frames on a Concertina base module is as standard produced in Concertina grey (#229) but can be ordered in other standard colours with a surcharge of EUR 1,000.00 per module. If other colours are requested, please see Design Options - steel colours.

The upper front panel on a Concertina base module is as standard delivered in the colours shown on page 6 at no surcharge.

Note

- The actuator is only available in RAL 9006 Steel (#220).
- As a standard, the rubber edging and bumpers are produced in grey (but are available in black at no surcharge).

COUNTER TOPS

The steel parts on the counter tops are as standard produced in Concertina grey (#229), but can be ordered according to the colours shown on page 6 at no surcharge.

WOODEN COMPONENTS

BASE MODULES

The wooden front panel on a Concertina counter is as standard produced in beech or birch veneer.

COUNTER TOPS, RAIL TOPS AND BAG SHELVES

The counter tops, rail tops and bag shelves are as standard produced in grey laminate "Dandekor Etronit MB 311 NCS 4502-B Grey" (#185) or grey linoleum "Forbo desktop elegance 4175 Grey" (#257).

Note:

Some special laminates and linoleums may release a higher surcharge.
Counter tops and rail tops cannot be produced in wood veneer.

DRAWER PEDESTALS

The drawer pedestals are as standard produced in Concertina grey (#229). The drawer pedestals can be painted in any NCS or RAL colour without extra surcharge.

DESIGN OPTIONS

STEEL PARTS

The steel parts can be produced in standard steel colours at no extra charge. The only exceptions are Mango (#237), Copper (#241) and City Grey (#236) that have a 3% price supplement.

The steel parts can also be powder coated in other colours with the following surcharges:

- Starter fee for RAL colours: EUR 210 + surcharge of 15%*
- Starter fee for NCS colours: EUR 460 + surcharge of 15%*
- Starter fee for custom colours: EUR 460 + surcharge**

*A higher surcharge for colours with "metallic" look or different surface textures must be expected.

**Surcharge depends on supply channel and project size.

Note

- Steel gloss range is between 60 and 80, except for Champagne Mist (Eurobib off-white), that has steel gloss range between 25-35. Special requests outside this gloss range are not covered by the above surcharges.
- Chrome, electro galvanised and aluminium parts are not available in other colours.
- Products such as e.g. wheels and accurides cannot be produced in other colours than described in the price list.

DESIGN OPTIONS

WOODEN PARTS

Veneer

The wooden parts can be manufactured in a number of different lacquered veneers:

- #54 Cherry wood: surcharge of 40%
- #55 Light steamed beech: no surcharge
- #66 Oak: surcharge of 15%
- #67 Maple: surcharge of 20%
- #68 Ash: surcharge of 20%
- #69 Birch: no surcharge
- #70 Beech: no surcharge

#54 Cherry

#55 Light steamed beech

#66 Oak

#67 Maple

#68 Ash

#69 Birch

#70 Beech

The wood veneers can also be stained with an additional surcharge, please ask customer service. Samples will be forwarded for approval.

Melamin/Laminat

Most of the wooden components are available in melamine or laminate with an additional surcharge, please ask customer service.

Painted

The wooden components can be painted in any NCS colour in gloss 30 without extra surcharge*. For maximum robustness we recommend laminated wooden shelves.

*A higher surcharge for colours with "metallic" look or different surface textures must be expected.

Morsø Public Library, Denmark

Two Concertina 45° curved base modules with counter tops

CONCERTINA COUNTER

DIMENSIONS

The modules for a Concertina counter vary in size. Please find important dimensions below.

HEIGHT

The Concertina counter is available in two models - fixed height (standard 72 cm) or adjustable height. Fixed height counters can be ordered in the range from 70-120 cm.

DEPTH

The straight and curved counter tops are available in three depths:

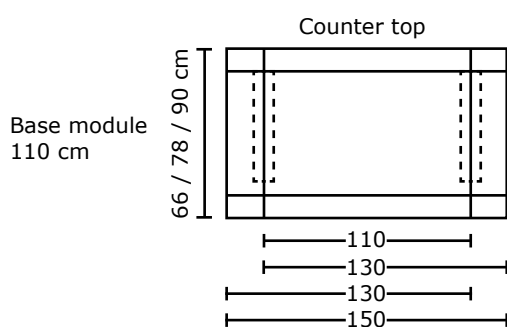

66 cm
78 cm
90 cm

WIDTH

The straight base modules are available in two widths:
110 cm
150 cm

The straight and curved counter tops are available in four widths, depending on type of module (straight/curved), counter top depth (66/78/90 cm) and curve (45°/60°):
130 cm
150 cm
170 cm
190 cm

See below for further specifications.

Curved modules

CONFIGURATION OF COUNTER TOPS

Base module	Width cm counter top
110 cm	110 cm counter top is used when connecting modules are placed on either side
110 cm	130 cm counter top is used when an adjacent module is placed on one side
110 cm	150 cm counter top is used for a freestanding module
150 cm	150 cm counter top is used when connecting modules are placed on either side
150 cm	170 cm counter top is used when an adjacent module is placed on one side
150 cm	190 cm counter top is used for a freestanding module

Middle	B36002145452
Left side free	B36002145472

CONCERTINA COUNTER

COUNTER TOPS FOR 60° CURVED BASE MODULE

The counter tops are available in four models; no projection, projection towards client, projection towards staff, and projection on both sides. Furthermore the counter tops are prepared for either freestanding, left side free, middle and right side free modules all depending on the position of the module. Note the construction of the Concertina counter is based on a left-to-right sequence (seen from the person's view sitting behind the counter).

No projection - depth 66 cm - for 60° curved base module

	Model	Item no.
	Freestanding	B36002160180
	Right side free	B36002160160
	Middle	B36002160150
	Left side free	B36002160170

Projection towards client - depth 78 cm - for 60° curved base module

	Model	Item no.
	Freestanding	B36002160280
	Right side free	B36002160260
	Middle	B36002160250
	Left side free	B36002160270

Projection towards staff - depth 78 cm - for 60° curved base module

	Model	Item no.
	Freestanding	B36002160380
	Right side free	B36002160360
	Middle	B36002160350
	Left side free	B36002160370

Projection on both sides - depth 90 cm - for 60° curved base module

	Model	Item no.
	Freestanding	B36002160480
	Right side free	B36002160460
	Middle	B36002160450
	Left side free	B36002160470

CONCERTINA COUNTER

COUNTER TOPS FOR 60° CURVED BASE MODULE - WITH LOW RAIL

The counter tops are also available with a low rail (inner height 25 cm) that is fixed onto the counter top.

No projection - depth 66 cm - for 60° curved base module - with low rail

	Model	Item no.
	Freestanding	B36002160181
